GOLD Heavy Duty Universal Joints

- Nylon thrust washers eliminate metal-to-metal contact, reducing wear and extending life.
- Retained-needle bearings provide quick and trouble-free installation.
- Superior bearing package ensures long, trouble-free life.
- Advanced nitrite, triple-lip sealing system keeps lubrication in and contaminants out, for longer life.
- Bearing design permits smaller clearances in the kit resulting in easier initial driveshaft balance and a maintained driveshaft balance in the vehicle.
- Precision-ground, large diameter trunions provide superior strength.
- Corrosion-resistant seal guard protects and secures advanced slip seal.
- Superior for higher angle applications such as inter-axle applications.
