PERFORMANCE SERIES

Neapco®
Performance Series
U-Joints.

Outperform the
Competition!

Neapco® Performance Series Universal Joints Outperform the Leading Competitor in **Strength and Fatigue.**

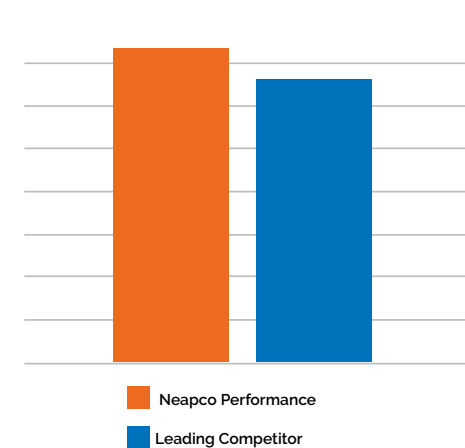

Neapco Performance Series Universal Joints are the next generation of u-joints and outperform the leading competitor's joints in ultimate strength and fatigue tests. Neapco Performance Series U-joints achieve this exceptional performance by paying close attention to the details that make big differences:

- **Enhanced design thrust washer** with a low-friction additive to the material decreases stick-slip and provides lower heat generation, friction, and wear due to new geometry.
- **Increased trunnion diameter** for optimum strength. The addition of a needle bearing and a reduction in grease reservoir depth increases the overall strength and improves stress distribution along the trunnion.
- **A quad-lip seal** prevents grease purging and outside contaminants from entering the u-joints.
- **The journal/spider body configuration** is optimized to provide smoother transitions, ultimately decreasing stress risers throughout the u-joints.
- **Neapco Performance Series Ultra-Performance Universal Joint Grease** provides superior durability, greater water resistance, and is stable across a wide range of temperatures.

Universal Joints* outperform the leading competitor.

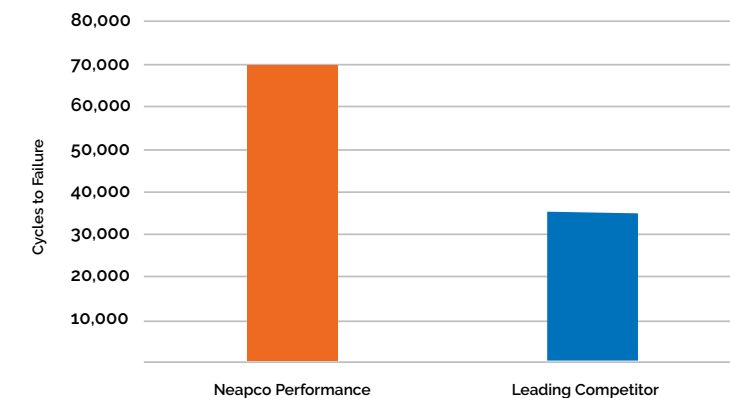

Ultimate Strength

Low Cycle/High Torque Fatigue Comparison

High Cycle/Low Torque Fatigue Comparison

*Based on 1350 Series Joints Tested

Neapco Performance Series U-joints are made in the U.S.A. and are available in these sizes:
Standard: 1310, 1330, 1350, 1410, 1480, 1550, 3R, and 7290
Conversion: 1330-3R, 1330-7290, and P55-55-675.

About Neapco®

Neapco, founded as the New England Auto Products Corporation, has been serving the OEM and aftermarket driveline markets since 1921. In 2021, the Company will be celebrating its 100th anniversary. Named as one of the fastest-growing private companies in the United States by Inc. Magazine and placing on the Crain's Fast 50 list, Neapco designs, manufactures and distributes both OEM and aftermarket driveline products for automotive, commercial vehicle, off-highway and other specialized applications across the globe. Neapco's highly respected products are developed and produced by a diverse team of more than 3,000 employees located in five countries. The Company is headquartered in Farmington Hills, Michigan.

The perfect match!

Neapco Performance Series Carbon Fiber Driveshafts.
